

Financing with Olympic Financial is painless!

The following steps are a basic outline of Olympic's standard application only (no financials submitted) financing process. As every request is different, it is possible that an application may require additional steps.

- 1)** Download Olympic Financials financing application [HERE](#) and complete it (as thoroughly as possible)
- 2)** Either submit your completed application to us via fax at: **(888) 621-7939**, email it to us at: app.entry@olyfinancial.com or (if applicable) you can submit your completed application to your equipment supplier (Olympic Preferred Vendor partners only) to have them submit it online.
- 3)** You will receive prompt confirmation that our team has received your application via telephone and one of our teammates will verbally go through your application and request with you. During this call, we will also discuss any possible information / documentation requests the lender may require. We want our customers to understand the timeframes they can expect and any possible delays. Our application review call will usually be made to you within 3 business hours of your submitted request (usually sooner).
- 4)** Once we secure your approval (timeframe varies / each request differs); we will send you financing documents directly to you for signature. We can send your documents via fax, Email or Overnight shipping (your choice).
- 5)** Upon completion of the documents, you send them to us via our Overnight shipping provider (on OUR account / we pay). Once we receive your documents, we review them again for accuracy and submit to the lender for prompt funding process or Purchase order issuance to your supplier!
- 6)** To finalize your transaction and for your piece of mind, before any funding or payment can take place, the lender will call you to verbally "confirm" you are ready to pay your supplier. Only on with your authorization will any money be released.

You're in control every step of the way!

Once you give both your written and verbal authorization / "OK", the bank will fund your supplier accordingly.

THAT'S IT!

Olympic Financial works as an "agent" to secure a financing approval on your behalf with one of our MANY lending partners. We work closely with you to educate you on your financing options and how your request will be specifically reviewed by our lending partners. We will clearly identify and understand your needs / expectations before moving forward with our negotiations to secure your approval.

As with any financing request that may or may not be additional information needed by our lending partners to secure an approval for your business. Unfortunately, as every business and credit situation is different, we do our best to request all information in advance but on occasion, the lenders may request additional information. We will provide you a clear and concise reasoning and explanation on each request and our advice to help you determine to validity of the request.
